*** This glove is suitable for contact with foodstuff and meets the following specifications:**
- migration test in compliance with Regulation (EU) n.10 / 2011 and related amendments on plastic materials and objects intended to come into contact with food products.
- with reference to EN 1186: Part 3 (test methods for migration in aqueous simulants of food products by total immersion).

EUROPEAN SYMBOL STANDARD

EN 388:2003
ABCD

MECHANICAL HAZARDS
A abrasion resistance (min.1 – max.4)
B cut resistance (min.1 – max.5)
C tear resistance (min.1 – max.4)
D puncture resistance (min.1 – max.4)

CONTACT WITH FOODSTUFF
Suitable for contact with foodstuff

EN 388:2016
ABCDE

E cut resistance by sharp objects EN ISO 13997:1999 from min. A to max. F (**X** = not tested)

Light support (18 needles), breathable nitrile, anti-cut 'C' (ex level 5)

- Glove made with a light knitted support type continuous thread with 18 needles in mixed fibers (HPPE, encapsulated glass fiber, Lycra®, nylon).
- Excellent abrasion and cut resistance.
- Breathable nitrile coating for greater hand comfort.
- Particularly suitable for processing in dry environments where it combines grip, dexterity and maximum precision with excellent resistance to both abrasion and cutting.
- The innovative shapes used to simulate the hand at rest reduce fatigue and allow perfect adherence to the hand, increasing its tactile sensitivity.

FEATURES 18745

- aerated fingers
- reinforcement between thumb and forefinger
- elasticized wrist
- color: melange light blue-grey/black
- sizes: 6, 7, 8, 9, 10, 11
- cartons: 72 pairs
